

Installation and User Guide

Installation Instructions:

- Dependencies:
 - Ensure you have Python 3 installed on your system.
 - Then run `setup[.sh/.psh/.bat]` based on your OS to install the rest of the python 3 dependencies. Note: we did not have capabilities to test this program on Windows or Apple products.
 - Then run the “Stegord Setup” executable located in the build folder, this should download the Electron dependencies and run the app.

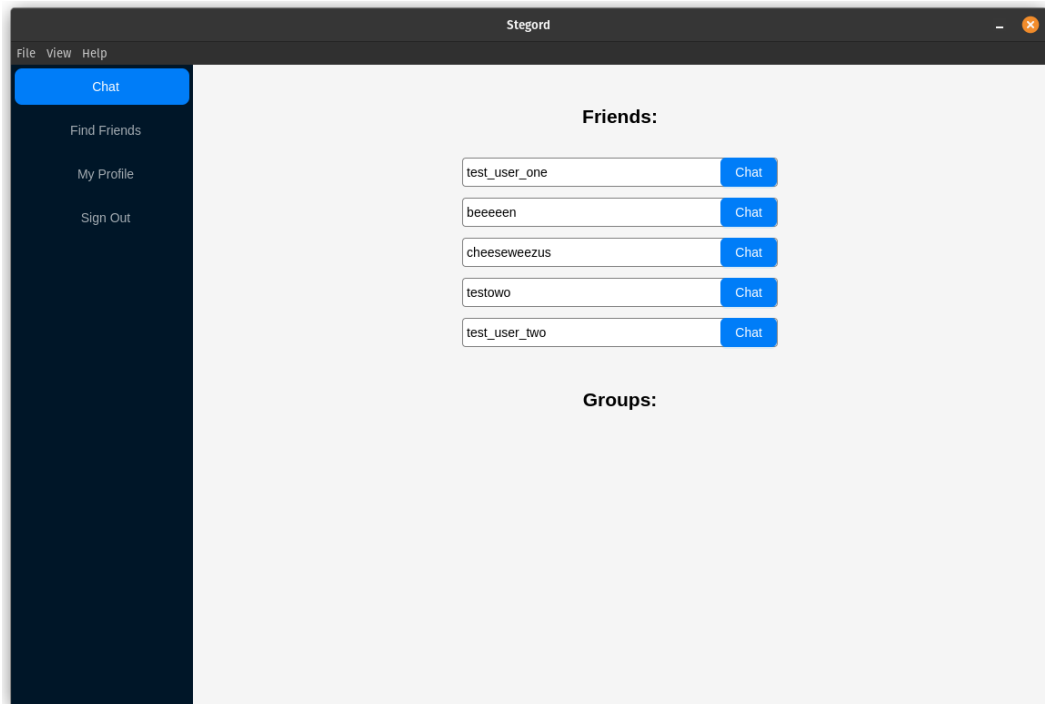

Login / Signup Page:

1. When starting the app, it defaults to the login page, clicking “create account” in order to jump to the create account UI element.
2. Then type in your email and create a username and password for your account and click the “sign up” button
3. If you already have an account, simply login with a username and password.
4. Once logged in you will be redirected to the dashboard.

Main Dashboard:

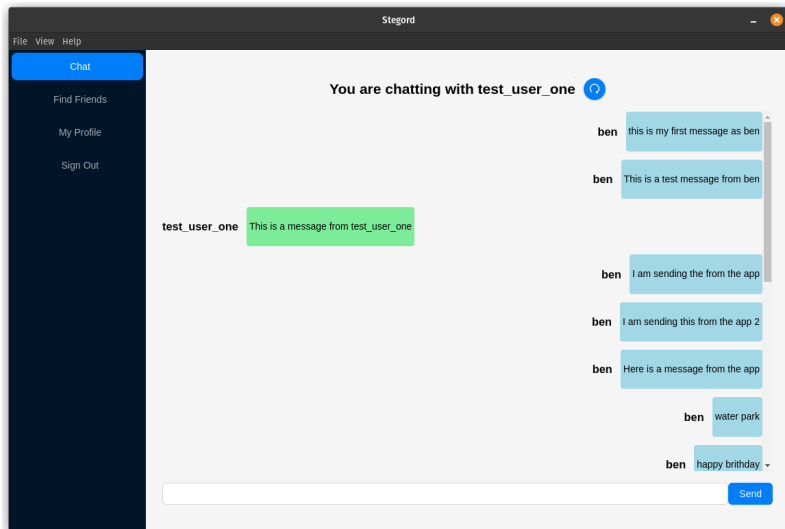

1. In the main dashboard, you can access all of the pages on the left sidebar.
 - The button at the top of the list is the “Chat” button clicking that allows you to start chatting with friends you have friended.
 - The “Find Friends” button allows you to find users to friend and chat with as well as accept or decline friend requests.
 - “My Profile” button allows you to change and set a personalized bio and change your profile picture
 - Then the “Sign Out” button signs a user out of the application

Chat Page 1 of 2:

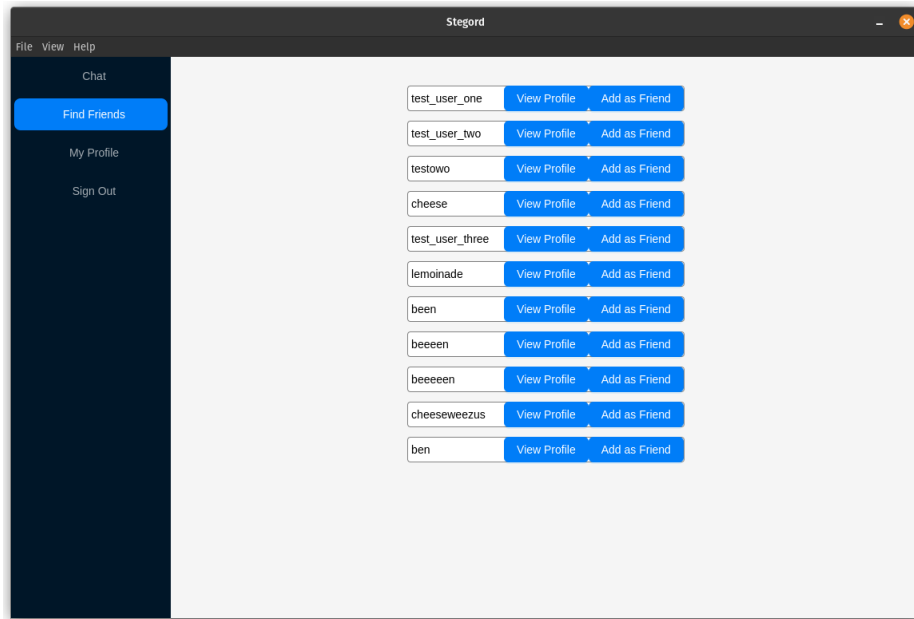

1. On the chat page you can click whichever friend or group you want to start chatting with by pressing the blue “Chat” button next to their name.

Chat Page 2 of 2:

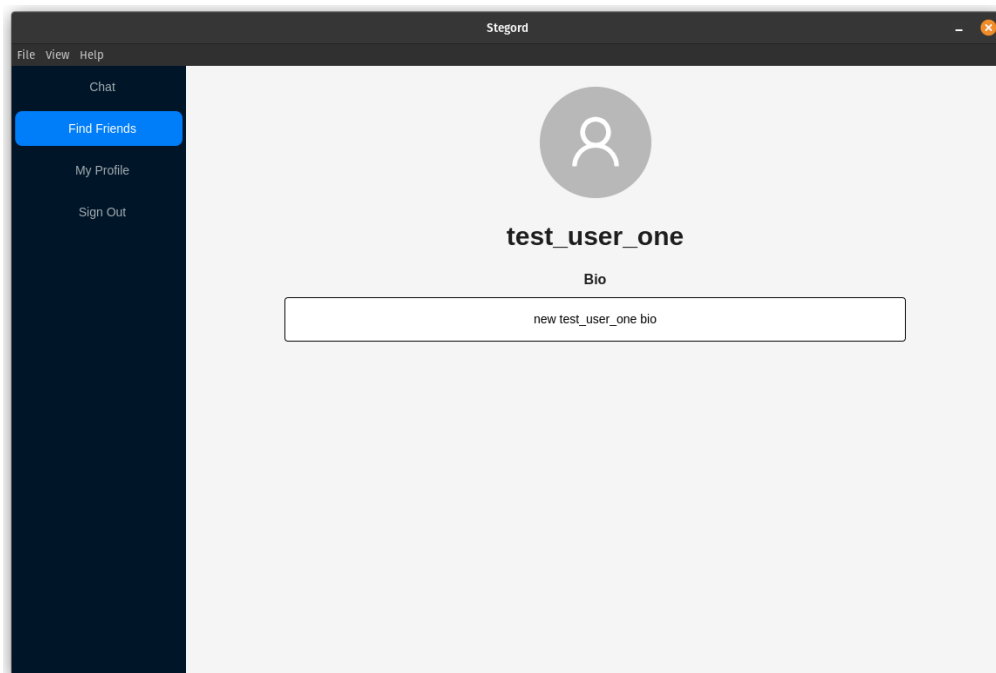

2. Once on the chat page, the chats you send show up in blue and the chats you receive show up green.
3. Type in your message in the white bar and click the blue “Send” button to send messages

Find Friends Page:

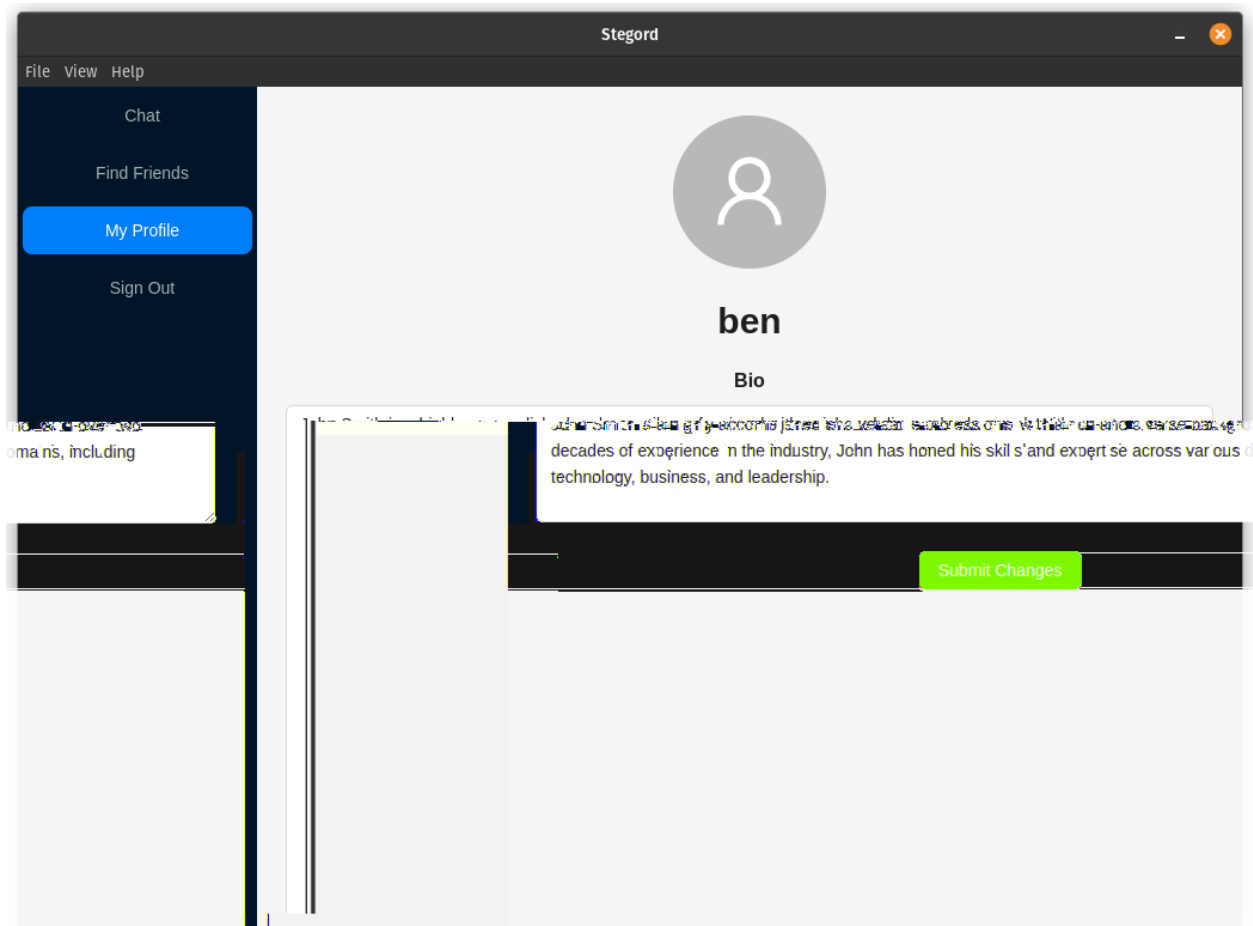

- This page allows you to search for any user and view their profile and add them as a friend using their respective buttons.

- When clicking the view profile this is the page you see. You can see both the profile pic and bio.

My Profile Page:

This page allows users to set their bio by editing or changing the bio in the text box and hitting the blue “submit changes” button. You can also change your profile picture by clicking the picture at the top.
